PRIVACY

BLENDING INDOOR AND OUTDOOR SPACES AT THE TOUCH OF A BUTTON

Phantom's retractable screens for outdoor spaces are motorized – appearing at the touch of a button and disappearing when you don't need them. Perfect for large openings, they give you fresh air, shade from the sun, protection from insects, climate control or a bit of privacy. They can be surface mounted or recessed into walls, columns and ceiling cavities to blend perfectly with your décor.

Applications

Phantom's motorized screens are custom made and professionally installed on covered outdoor spaces and large openings including patios, porches, balconies, verandas, lanais, loggias, large picture windows, glass walls and multi-sliding & bi-fold door systems.

Porches

Balconies

BUILDING INTEGRATION

We integrate motorized screens into every type of building material including wood, brick, stucco, natural stone and concrete.

DUAL ROLLER APPLICATION

Allows you to have more than one motorized screen in a single pocket – providing any two combinations of insect prevention, solar shading, climate control or privacy.

CONTROLS & AUTOMATION

We program your motorized screens to support the way you want your living space to function.

Wide variety of control options for your comfort & convenience

- Wall-mounted switches and hand-held remotes
- Motors with smart functions such as advanced obstacle detection
- Sun and wind sensors programmed to respond to the outdoor conditions
- Operate from smartphones or tablets
- Easily integrated into most home automation systems, including Lutron® and Crestron® as well as smart home systems, including Amazon Alexa and Google Home™.

**NEW
CABLE GUIDE
SYSTEM**

PHANTOM'S CABLE GUIDE SYSTEM IS THE NEWEST OPTION AVAILABLE IN OUR FAMILY OF MOTORIZED SCREENS

Why cables over tracks?

The subtle cable guides keep exterior solar shades in place on windows, glass walls and structures with open corners where there are no posts or walls to mount a track system.

The cables are mounted between the roller assembly and anchors attached on a floor or vertical surface. It features self-tensioning technology that helps keep the cables taut in varying outdoor conditions, reducing the need for maintenance.

WIDER, STRONGER, BIGGER THAN EVER

Phantom's motorized screens can now cover openings up to 40 feet wide! This is well over the industry standard of 25 feet and displays beautifully across your home. This screen truly transforms your living space to create an oasis that will **WOW** your guests.
